Kansas Implementation Update: SLIP+ Transaction Fee

This update applies only to **Kansas** filings.

For Kansas policies, the SLIP+ transaction fee will not be applied to any policies with an effective date **prior to May 1, 2026**. This timing reflects a 90-day period following the release of the Kansas bulletin and is intended to support a smooth transition.

For Kansas policies with an **effective date of May 1, 2026, or later**, as well as any endorsements associated with those policies, the SLIP+ transaction fee will apply.

We appreciate your attention to this update and are available to answer any questions or provide additional clarification as needed.
